

UTCA Construction Safety Seminar

OSHA Confined Space in Construction Training

Saturday January 20, 2018

7:30am Registration & Continental Breakfast

7:45am - 11:00am

On May 1, 2015 the Occupational Safety and Health Administration (OSHA) issued the new Confined Space in Construction standards. OSHA will include the new subpart to 29 CFR Part 1926, providing added protections for employees working in confined spaces (such as manholes, crawl spaces, and tanks) facing life-threatening hazards including toxic substances, electrocutions, explosions and asphyxiation.

All firms had until October 1, 2015 to be in compliance with the new standard!

Are all you workers trained on the new standard?

Training and awareness in OSHA's Confined Space in Construction standard is mandatory for any person entering a confined space.

All **new standards rules** will be covered at the seminar as well as all the required items that have been part of the General Standard for Confined Space entry.

The registration fee for this seminar is \$80.00 per person. Those who complete the seminar will receive a wallet size certificate of attendance for their use. This certificate serves as evidence of the **training** on the new standard "Confined Space in Construction" with OSHA.

The seminar will include a continental breakfast. This program will be held at the UTCA Conference Center in Farmingdale, New Jersey. Directions to the UTCA office can be obtained on the association website at www.utcanj.org.

Please contact Dan Neville at (732) 292-4300 with any questions you may have regarding this seminar.

**[The UTCA Conference Center is located at:
1670 Route 34 North, Farmingdale, NJ 07727](#)**
